

A Soul-Mate for Valerie

Contributed by Tom Steenbergen

Last friday Dick and I went to visit Valerie Welch, a member of our canoecclub, k.v. Keistad (Amersfoort). Valerie is building a cedar strip solo canoe. For the design she chose a Soul-Mate by Carrying Places, a very nicely lined canoe but not so easy to build because of the tumble home gunwales. The hull is now complete and is awaiting the glass and epoxy layers. I am very curious to see the endresult, which can only be fabulous considering how it already looks. You are able to watch Valeries progress on <http://www.paddler.nl>.
